STONE WITNESS THE GREAT PYRAMID.

The Ancients in recounting the Seven Wonders of the World, placed at the head of the list, the Great Pyramid. Its interior passage ways evidently symbolically represent the Ages and Dispensations in the Divine Government in connection with humanity. Its witness is only beginning to go out to the world of mankind. It is commonly credited to the foolishness of an Egyptian King. Such claims as to the other Pyramids which are inferior to this one, are not questioned, but the great Pyramid evidently was constructed under Divine supervision. In symbolic language the Pyramid interprets itself if figured an inch for a year. The downward passage way from the entrance to the bottomless pit represents the way traversed by the human race to death. The ascending passage way represents an escape from death and corresponds to the giving of the Law to Israel. "If ye do these things ye shall live by them." The intervening years to the end of Jewish favor, A. D. 32, has its exact fulfillment in Pyramid inches, bringing us to the Grand Gallery, which symbolizes the Gospel Age, the period of the High Calling, the Lord coming "that we might have life and that more abundantly." The grand scheme of

THE GREAT PYRAMID WHICH PASTOR RUSSELL BELIEVES HAS SYMBOLIC BIBLICAL SIGNIFICANCE.

Pyramid passage way measurements tells us that the Gospel Age is soon to end and that the time for Divine favor to return to Israel is about due. The measurements seemingly say that by 1915 the Jews should be re-established in their Promised Land.

The Pyramid covers an area of about 13 acres; is 486 feet high, and 764 feet broad at its base. It is estimated to weigh about 6,000,000 tons. It contains stones weighing three or four times as much as one of the obelisks. Some of the stones are thirty feet in length, and fit so closely together that you may run a pen knife over the surface without discovering the breaks between them. There is now no machinery so perfect that it will make two surfaces thirty feet in length which will meet together as these wonderful stones in the Great Pyramid. Its four corner stones are sunken in the earth in fulfillment of Job xxxviii, 3-7. It is supposed to have been built B. C. 2170 at which time the star, Draconis, symbolizing death, looked down the descending passageway, and at which time the Pleiades were in line and looked down the ascending passageway leading to life, the Pleiades representing the throne of Jehovah, the source of all life-giving power.

Will Carry the Gospel to Sailors of New York on Gift Yacht.

[From the New York Evening Journal, June 9, 1910.]

Pastor Russell of the Peoples Pulpit Association today declared that he would use the yacht Angel, presented to him by his association, to carry the gospel to the sailors of New York harbor, and, although complete arrangements have not been made for the work, he said there was no reason for questioning the efficacy of his plan.

"I have in my plans," he said, "one to make a mission boat of the Angel, preaching the gospel to the sailors of New York harbor, and, although complete arrangements have not been made for the work, he said there was no reason for questioning the efficacy of his plan."

"A practical plan would be to moor the yacht at different points nightly and advertise meetings for sailors. Sermons could be in English, German, Swedish, Italian and the tongues of other seafaring nations."

The Angel is 125 feet over all and uses both sails and naphtha. Seventy persons can find accommodations in her cabin and more on her deck during fair weather. Pastor Russell accepted the Angel, he said, not for himself, but as a trustee for the association.

The Spear in the Tusk.
It seems unbelievable that a wild negro's iron spear point seven and a half inches long by one and a half inches wide has been found all grown over and perfectly hidden in a big bull elephant's tusk. The savage had roosted up in a big tree over a spring where the elephant came for water. Then he dropped this spear, weighted to fifty pounds, so as to strike the nape of the neck and pierce the brain. Here the spear went a little to one side of the brain and into the big open funnel end of the root of the tusk, broke off and then "grewed" up in the ivory like a nail in a tree. The spear was found when the tusk was carved. —Exchange.
